Cashier, September 2007 – August 2009 -Tim Hortons

- Customer service, Cleaning duties, Baking duties
- Member of the employee group, duties involved monthly meetings with the managers discussing employee questions and concerns.

Current Projects

- A web page based upon the idea of whatmovieshouldIwatchtonight.com
 - To take the foundations of this website and apply it to other various streams of entertainment
 - The website is to be built with Ruby on Rails as the background framework
 - Currently in the prototyping stage
- An open source password generator currently named PGEN. It will complicate a given sentence or word. As well create a complicated password from scratch.
 - The project is currently completed in javascript form. Now looking to increase the quality of the randomness of the password generator as javascripts built in random function can be broken. Consulting various forums and books to ensure true randomness.

Computer Skills

- Knowledgeable in Windows Vista, 7 and Debian based Linux distros.
- Working ability with UNIX terminal
- Extensive knowledge and ability in Microsoft Office suite
- Experience running virtual machines

Programming skills

- Java/C/C++/NASM
- Learning Ruby / Python / ProstSQL
- HTML/CSS/PHP/Javascript
- MySQL/SQLite3
- Visual Basic Scripting
- Microsoft Office internal VB

Version Control

- Git
